

Fire Station #21 Reroofing & Fascia Project

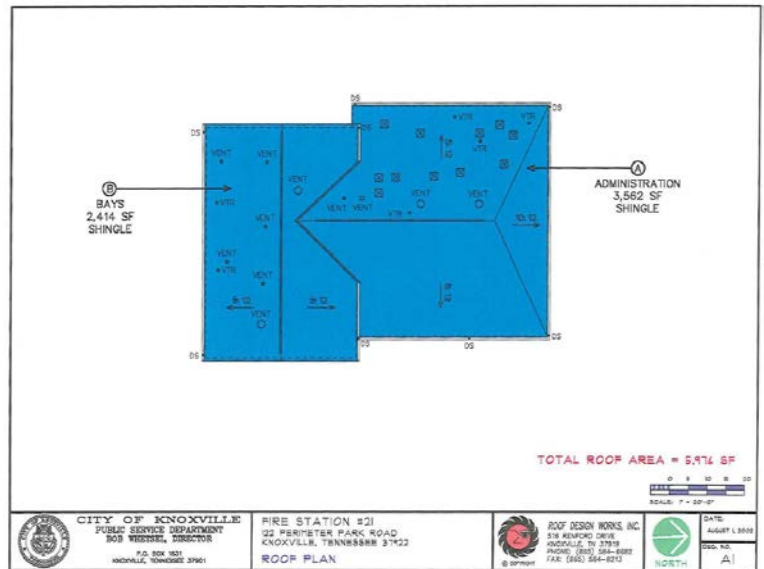

Project Description:

Fire Station #21 has an older, decaying roof and wood fascia that requires replacement. Through the past several years, Facility Services has patched and made repairs, but there continues to be issues and a full replacement is necessary.

This project replaces the asphalt shingle roof with a more durable metal roof, provides metal fascia and wrap, and replaces the gutters and downspouts.

John J. Duncan, Sr. Fire Station #21
245 Perimeter Park Drive
