Budget Presentation
Award*

PRESENTED TO

**City of Knoxville
Tennessee**

For the Fiscal Year Beginning
July 1, 2002

Handwritten signature of William R. White, President of GFOA.

President

Handwritten signature of Jeffrey R. Egan, Executive Director of GFOA.

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented an award for Distinguished Budget Presentation to the City of Knoxville for its annual budget for the fiscal year beginning July 1, 2002.

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications medium.

The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

Welcome to the City of Knoxville!

Mayor Victor Ashe and his family welcome you to Knoxville. In the following pages you will discover what Knoxville and the surrounding areas have to offer and that Knoxville is a wonderful place to live.

In his fourth term and 16th year as mayor of Knoxville, Tennessee, Victor Ashe is continuing to develop new and innovative ways to deliver essential public services while maintaining a level tax rate.

Ashe was first elected mayor of Knoxville in 1987 and won reelection in 1991 and 1995 by at least a two-thirds majority of the votes. In the 1999 Primary Election, Ashe was elected without a runoff to his fourth consecutive term as mayor.

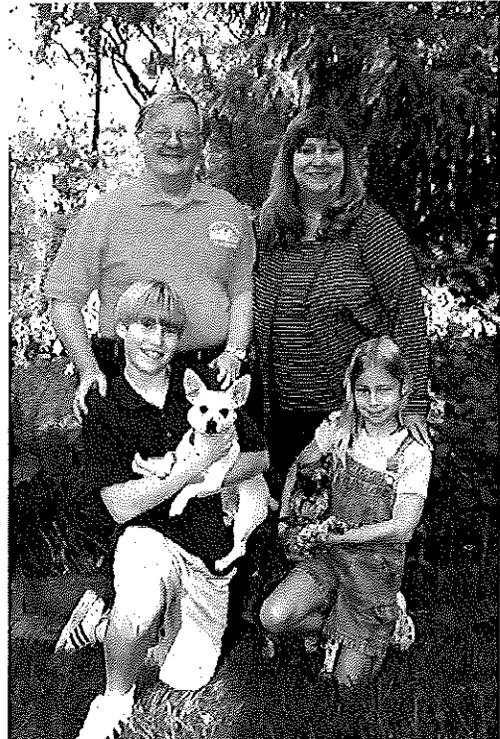

On January 24, 2003, Ashe received the Distinguished Public Service Award of the US Conference of Mayors. This is the highest award conveyed by the conference to mayors and other citizens who have had outstanding careers in public service.

On July 12, 2001, Ashe was appointed by President Bush to the board of directors of the Fannie Mae, the nation's largest source of financing for home mortgages and re-appointed on April 1, 2002.

Ashe served four years on the National Service Corporation Board appointed by President Clinton and confirmed by the U.S. Senate. Ashe also served on the Advisory Commission on Intergovernmental Relations by appointment of both President Reagan and President Bush.

As mayor, he has improved the city's financial condition, made sure city neighborhoods are clean and safe while developing new parks and greenways. Tremendous progress has been made towards these goals as Knoxville's bond rating has significantly improved saving taxpayers millions of dollars in interest costs. Crime rates have dropped by more than 30 percent since 1991, and the Police Department has been accredited. Seven new major parks, more than 20 miles of new greenways and new downtown attractions along the Tennessee River have been developed.

Mayor Ashe is a past President of the United States Conference of Mayors (1994-1995), which represents 1,100 cities with populations of more than 30,000. As USCM President, Ashe led the battle against unfunded federal mandates that resulted in the passage of a mandate relief bill which was signed into law by the President in March, 1995. He is also a past president of the Tennessee Municipal League. The mayor also serves on the advisory board of the National League of Cities, the nation's largest municipal organization. In 1999 Mayor Ashe received the Martin Luther King Leadership Award by the Knoxville King Holiday Celebration Commission.

A graduate with BA in history at Yale University in 1967 and the University of Tennessee College of Law in 1974, Mayor Ashe was elected to the Tennessee House of Representatives in 1968 at the age of 23. He served six years in the state House before being elected to the Tennessee State Senate in 1975 where he served nine years until he resigned in 1984 to run for the U.S. Senate. While in the Legislature, Ashe successfully passed bills creating Tennessee's Natural Areas Preservation Act and exempting prescription drugs from sales tax. He also authored Tennessee's presidential primary law.

The City has a Mayor-Council form of government. The Mayor is the chief executive and administrative officer, elected by a direct vote of the people to a four-year term of office. The City Council is composed of six district council members and three council members-at-large, each serving a term of four years. Four council members are elected at one biennial election; five are elected at the succeeding biennial election. The council members are nominated in a primary election by districts and elected by the qualified electorate of the entire City in the general election.

KNOXVILLE/KNOX COUNTY GENERAL INFORMATION

Founded in 1791 where the French Broad and Holston Rivers converge to form the Tennessee River, Knoxville is the largest city in East Tennessee and ranks third largest in the State. It is located in a broad valley between the Cumberland Mountains to the northwest and the Great Smoky Mountains to the southeast. These two mountain ranges help provide a moderate climate. There are 101-square miles in the City of Knoxville and 526-square miles in all of Knox County. Downtown Knoxville is 936 feet above sea level. In October of 1791, the City of Knoxville was officially founded, named in honor of General Henry Knox, Secretary of War in President Washington's Cabinet. In 1796, when the territory became the State of Tennessee, Knoxville was named the capital, and remained so until 1818.

At the outset of the Civil War, East Tennessee strongly favored the preservation of the Union, but Middle and Western Tennessee favored secession. Thus, on June 18, 1861, the State of Tennessee seceded from the Union, joining the Confederacy. During the Civil War, Tennessee, known as the Volunteer State, provided 100,000 men to the Confederacy, and 30,000 to the Union. When the war ended, Tennessee was the first to rejoin the Union.

After the Civil War, the area began to grow and thrive. After hosting three expositions in the early 1900's, the City was pleased to again welcome a major exposition, the 1982 World's Fair and Energy Exposition. For six months, Knoxville was home to twenty-three countries exhibiting their energy ideas. More than 11 million visitors attended that fair, making it one of the largest ever.

Livability and Climate

The Knoxville area is ranked first in the United States among mid-sized urban regions according to the latest edition of Places Rated Almanac. Among the 343 metropolitan areas of all sizes rated in the book, the Knoxville area placed 13th overall. A favorable cost of living, affordable housing, excellent health care, a low crime rate, cultural events, and a pleasant climate with nearby lakes and mountains contribute to making Knoxville an attractive place to settle. The University of Tennessee calls Knoxville home, making an array of educational and cultural opportunities available to area residents.

The sheltering mountain ranges, which surround Knoxville, help provide a moderate climate, and there is seldom an extended period of either extremely hot or cold weather. The Tennessee Valley, with its four distinct seasons, sees an average of 11.40 inches of snow and 47.14 inches of rain annually. The average annual temperature is 60 degrees. In January, the coldest month, the average is 38 degrees, and in July, the hottest month, average temperature is 78 degrees.

Utilities

The Knoxville Utilities Board (KUB) distributes electric power generated by the Tennessee Valley Authority. KUB also provides natural gas, water, and sewer services. In Knox County outside KUB boundaries, six utility districts, five of which also supply wastewater treatment service, supply water service. The Lenoir City Utilities Board provides electricity for portions of west Knox County.

Population

Knoxville, the county seat of Knox County, is the largest incorporated municipality within the County. The chart below shows the population for both the City and County.

Total City/County Population			
Year	Population	Percent Change	
1990	335,749	1980-1990	5.0
2000	382,032	1990-2000	13.8
2002	389,327	2000-2002	1.9
2010 (projected)	429,730	2000-2010	12.5
City of Knoxville			
Year	Population	Percent Change	
1990	169,761	1980-1990	-3.0
2000	173,890	1990-2000	2.4
2002	177,661	2000-2002	2.2
2010 (projected)	183,044	2000-2010	5.3

Demographic Information

Age Distribution (as of 2000)		
Age	Knoxville MSA	Knox County
0-4	41,172	23,371
5-9	43,841	23,984
10-14	44,318	23,846
15-19	46,440	26,976
20-24	48,243	31,408

Asian	6,796	4,937	2,525
Other	3,426	1,902	1,257
*Hispanic	8,628	4,803	2,751

(*Note: Hispanics are an ethnicity and can be of any race.)

Education System

City of Knoxville voters approved a referendum on November 4, 1986, which transferred funding and operational responsibilities of the City's 51 public schools to Knox County on July 1, 1987. Knox County currently operates 89 public schools, including 51 elementary, 14 middle, and 12 high schools, 2 vocational schools, 10 special/adult education centers. Enrollment in 2002 was 51,800 students. There are 31 active private and parochial schools offering elementary and secondary education in Knoxville.

The University of Tennessee is one of the oldest institutions of higher education in the nation, tracing its origins back to 1794. The main campus is located in the City and includes all colleges except the medical units. Total enrollment is 25,500 students. The percentage of college students that graduates is 23.9%. Other campuses of the University System are located in Memphis, Chattanooga, Nashville, and Martin.

The Pellissippi State Technical Community College is the third largest two-year college in Tennessee with an enrollment of 8,000. Facilities include the main campus in the Technology Corridor, along with the Division Street and Blount County campuses.

Knox County operates a library system, which has seventeen branches located throughout the City and County. The size of collection for the library is 1,002,713. The University maintains a main library and four branches on its campus. The library is open to the public with checkout privileges to students, faculty and fee-paying members.

Recreation and Tourism

The City of Knoxville has captured the benefits of its prime location to the mountains and highways. It boasts nine theaters for the performing arts, the Knoxville Museum of Art, the World's Fair Park, and many other galleries and museums. Nine historical sites are open to the public, including the original James White Fort, Blount Mansion, and Old Gray Cemetery. Other historic preservation efforts are taking place throughout the City.

In recent years, the City has put emphasis on greenways connecting parks and neighborhoods. Walking trails and small neighborhood parks have also been added in significant numbers. Knoxville/Knox County has 5,702 acres of park and recreation space, including 27 recreation centers, 6 senior citizen centers, 147 playgrounds and parks, 103 tennis courts, 21 public golf courses, and 17 greenways and walking trails. Two big attractions for both young and old are the Knoxville Zoological Gardens and Ijams Nature Center. The Tennessee Smokies provide a professional baseball for East Tennesseans. National championship UT sport teams draw thousands of enthusiasts to games each year. Special seasonal events include the Dogwood Arts Festival in the spring, Festival on the Fourth in the summer, Boomsday in the fall, and Christmas In The City in December.

The nearby Great Smoky Mountains National Parks is the country's most visited national park with 9.3 million visitors in 2002. Knoxvilleans and visitors alike enjoy the beauty and leisure activities that can be found there and at the numerous state parks, lakes, and resorts which dot the area.

Knoxville supports an active tourism and convention trade. A new 500,000-square foot convention center on the World's Fair Park site opened in 2002. The center includes spacious meeting rooms and a 500-seat lecture hall. Other local facilities are a large civic coliseum/auditorium, an exhibition hall/convention center, and a 25,000-seat arena. In 2000, travelers spent more than \$549 million in Knox County, ranking it fifth in the state for visitor expenditures. Over 8,500 people are employed in travel related jobs in Knox County.

Arts and Culture

The Knoxville Symphony, the Knoxville Opera Company, and the Tennessee Children's Dance Ensemble are among the many exceptional arts organizations in Knoxville. Additional dance companies, civic choral groups, and ten theaters also help celebrate the arts. Live entertainment productions include touring Broadway shows, ice shows, concerts, and circuses. The Knoxville Museum of Art and the 11th Street Artists Colony feature changing exhibits throughout the year. Many libraries, historic sites, and museums, such as the Museum of Appalachia and the Beck Cultural Center, add to the cultural value of the Knoxville area.

Civic Organizations

The Knoxville Area Chamber Partnership has 1,813 members who participate in economic development, general commerce, and civic affairs. Around 150 civic groups and 200 neighborhood associations are active in the City and County. United Way and Community Shares support agencies providing youth, family, and social service programs. Organizations such as the Community Action Committee and Child and Family Services also offer needed social programs. More than 400 churches, serving many faiths and denominations, meet the religious needs of the community.

THE ECONOMY

Transportation

Three of the nation's busiest interstate highways intersect near Knoxville: I-40, I-75, and I-81. One-third of the U.S. population is within 500 miles of Knoxville via the interstate system. The city is directly linked to the Great Lakes by the Interconnected Inland Water System and to the Gulf of Mexico by the Tennessee-Tombigbee Waterway. Three active river terminals facilitate barge shipping. Also serving the area are 125 truck lines, 3 railroads, and 7 airlines. Knoxville Area Transit (KAT), the public bus system serving the city, operates 80 vehicles and carries about 2 million passengers a year. A trolley system serves the downtown and university areas.

Commerce and Industry

Eleven business/industrial parks and the Technology Corridor in west Knox County provide locations to meet corporate needs. Several telemarketing divisions of large corporations are located in Knoxville while manufacturing firms in the Knoxville MSA produce everything from medical devices and electronic components to chemicals and automobile parts. Many of these firms are recognized as national and global business leaders, including Pilot Corporation, Bandit Lites, Goody's, Clayton Homes, and Brunswick Corporation. New industrial investment in the Knoxville MSA in 2002 totaled \$632 million, creating 4,243 additional jobs.

Building Permits

More than 3,676 building permits were issued by the city and the county in 2002. Total value for 2002 is \$653,653,811.

Income

In 2001, Knoxville/Knox County per capita income was \$29,426, a 3.5% increase from 2000. The 2000-01 state increase was 2.0%, and the national change was 2.2%. Between 1991 and 2001, the average annual growth rate of per capita personal income in Knox County was 4.2%. This was below the rate for Tennessee, 4.4%, and near the national rate of 4.3%.

Taxes

There is no state personal income tax in Tennessee, however the state does levy a tax of 6% on stock dividends and bond interest. Called the Hall Tax, it applies to both individuals and partnerships. Under Tennessee Constitutional law, property taxes are assessed as follows: residential property is assessed at 25% of appraised value, and commercial/industrial property is assessed at 40% of appraised value. The current property tax rate for Knox County residents is \$2.96 per \$100 assessed value. The tax rate within the City of Knoxville is \$2.70 per \$100 assessed value. Residents of the City are subject to both City and County property taxes.

Employment

In 2002, nonagricultural employment in the Knoxville MSA (Anderson, Blount, Knox, Loudon, Sevier, and Union Counties) was distributed as follows:

Industry	Employment	% of Total
Natural Resources, Mining	600	0.2%
Construction	16,400	4.7%
Manufacturing	42,200	12.1%
Trade	63,200	18.1%
Transportation, Utilities	11,000	3.1%
Information	5,900	1.7%
Financial Activities	16,300	4.7%
Services	76,800	22.0%
Leisure & Hospitality	42,900	12.3%
Government	59,500	17.1%
Other Services	14,000	4.0%
TOTAL	348,800	

The overall business health of the Knoxville MSA is supported by a diversified economy. The balance among employment sectors contributes to the stability of local employment and wages. Total employment in 2002 was 365,300, including self-employed and agricultural workers. The metropolitan area hopes to gain 35,000 new jobs over the next 5 years through its economic development initiative, *Jobs Now!*

Labor Force

The 2002 civilian labor force in the Knoxville MSA was 378,500. The average MSA unemployment rate in 2002 was 3.5%. The rate for Knox County was 2.8%. Both are lower than the statewide average rate of 5.1% and the nationwide average of 5.8% for this time period.

Major Employers in the Knoxville MSA

Company	Number of Employees
U.S. Department of Energy-Oak Ridge Operations	13,682
University of Tennessee-Knoxville	8,311
Covenant Health	8,000
Knox County Schools	7,230
Wal-Mart Stores, Inc.	4,173

City of Knoxville's EEO/AA Statement

The City of Knoxville does not discriminate on the basis of race, color, national origin, sex, age, veteran status or disability in provision of employment opportunities, services and benefits.

The City of Knoxville does not discriminate on the basis of race, color or national origin in programs, benefits, and services pursuant to the requirements of Title VI of the Civil Rights Act 1964.

CITY COUNCIL BIOGRAPHICAL INFORMATION

Joseph Hultquist- First District

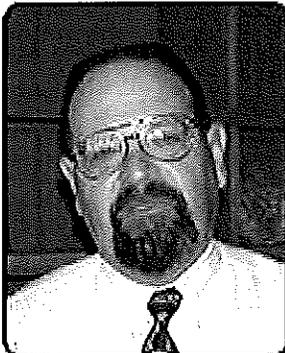

Originally from Maryville, Tennessee, Joe is a self-employed designer/builder/consultant. He has lived in Island Home Park neighborhood for about 15 years. In 1986, he co-founded the Island Home Neighborhood Association and served as its President for eight years. In 1991, Mayor Ashe named Joe to the City's Board of Zoning Appeals. He served a five-year term, never missing a single monthly meeting. In 1993, Joe spearheaded the effort to prevent downgrading the new highway and bridge that connect to Interstate 40. In 1998, he was awarded the first Community Cornerstone Award by the Knoxville News Sentinel/the South Knoxville/Sevier County area. In March 1999, Joe gathered with other people interested in developing a regional visioning process. From that meeting, the Initiating Committee Nine Counties One Vision (9C1V) evolved. Joe led the 9C1V outreach effort and has served continually on the 9C1V Board of Directors. This is Joe's first term on City Council.

Barbara Pelot – Second District

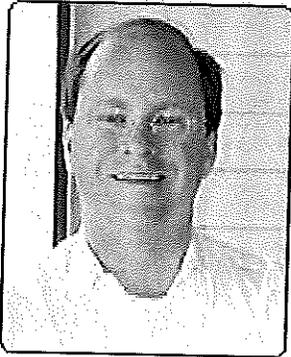

Barbara Pelot attended Southwestern Memphis (Rhodes College) 1955-1960, graduating cum laude from Memphis State University in 1959 with a degree in Sociology, History and Secondary Education. She is a City of Knoxville Wrecker Commissioner, Past President of West Hills Community Association, President of West Hills Community Association and Chair for the Knoxville Police Department Advisory Committee. She is on The American Cancer Society Board of Directors, and a member of the Tennessee Dental Association Concerned Dentists Committee and Office Manager of her husband's dental practice. Mrs. Pelot is a member of Concord United Methodist Church, and the wife of Reuben Nisbet Pelot, III. They have four children, Lisa, Laurie, Lynda, and Reuben IV (Buddy), and 14 grandchildren. This is her first term as a City of Knoxville Councilwoman. Her term expires December 2005.

Steve Hall – Third District

Steve Hall is the President of Interior Finishes Corp, a medium size commercial building contractor doing mostly retail construction. He and his wife Janet have five children and three grandchildren. Steve is also an active member and deacon of Gospel Light Baptist Church. Steve is the host of Politics Knoxville, a live call in show on every Friday night from 8:30 – 9:30 on Comcast Channel 12. Steve is the Chairman of the Beer Board. This is Steve's first term on City Council.

Rob Frost- Fourth District

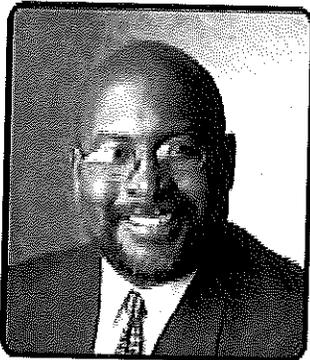

Rob Frost, the youngest member of City Council, is an attorney who practices law in downtown Knoxville. He received three Bachelor degrees from the University of Tennessee and graduated from The University School of Law. Rob, his wife and their son live in the Historic Fourth and Gill Neighborhood in a 106-year-old home that they are renovating. Rob also helps manage two small businesses that are renovating historic homes. Rob additionally serves on the boards of his neighborhood organization and Knox Heritage as well as serving on the City's Historic Zoning Commission. He is currently serving his first term on City Council.

Larry Cox - Fifth District

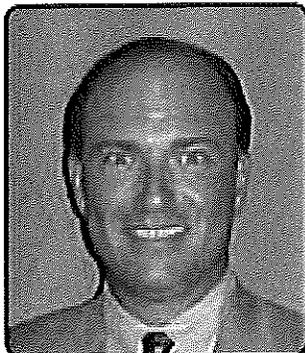

Larry Cox is President of Homestead, Inc., a wholesale food distributorship. He is a graduate of Cumberland College, Lebanon, Tennessee and holds a Bachelor of Science degree in Political Science from Middle Tennessee State University. He is married and the father of two children. Mr. Cox is serving his fifth term on City Council, which will expire December 2003.

Mark Brown – Sixth District

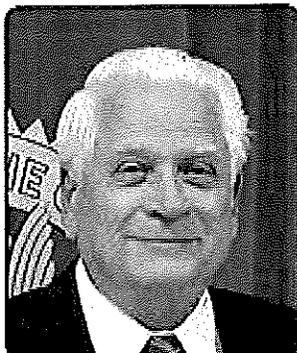

Mark A. Brown is a native Knoxville and attorney with the Campbell and Dawson law firm. He and his wife Marcia have one son, Mark Antoine Brown, II. Councilman Brown is the former CEO of the Knoxville Area Urban League and past chair of the Knox County Election Commission. He currently serves as the chair of the City of Knoxville's Audit Committee. In 1990, Councilman Brown was named one of the Leaders of the Future 30 years of age and younger by Ebony Magazine. Councilman Brown firmly believes "There is more that unites us than divides us." He is currently serving his first term on City Council.

Nick Pavlis - At- Large

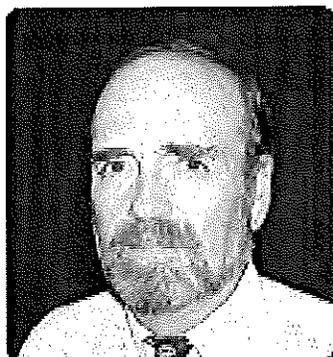

Nick Pavlis is employed as a Commercial Sales Representative with Comcast, Inc. and is past President of A&B Distributors, a gourmet food wholesaler. He is a graduate of the University of Tennessee, Chattanooga with a Bachelor of Science degree in Political Science. He has one daughter. He is the former Chairman of the Knoxville Beer Board and is serving his second term on City Council, which will expire December 2003.

Jack C. Sharp - At - Large

Jack Sharp is a retired businessman. He serves on the Board of Directors for the Knoxville Zoo and the City of Knoxville Pension Board. He is former President of Sharp's Drug Store. He was first elected to serve on City Council in 1976. He has served as the City's Vice-Mayor since 1990. Mr. Sharp is currently serving his seventh term on City Council, which will expire December 2003.

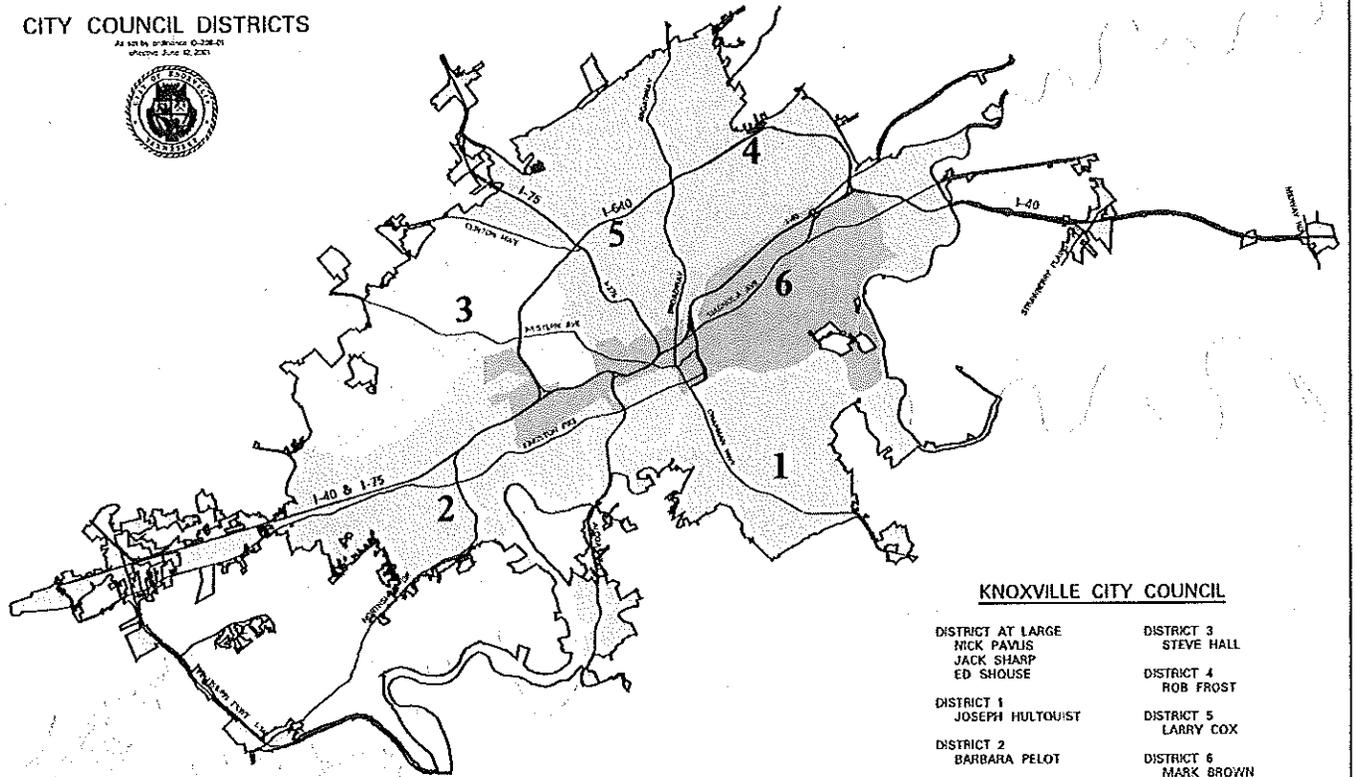

Ed Shouse - At - Large

Ed Shouse is Vice-President of Gulf and Ohio Railways. Mr. Shouse is a graduate of the University of Tennessee and was formerly an investment banker with Culver Securities, Inc., and Vice-President and Corporate Trust Officer of First Tennessee Bank. Mr. Shouse is married and has one child. Mr. Shouse is serving his fifth term on City Council, which will expire December 2003.

Executive Summary

The FY 03/04 budget, like all budgets, serves as a blueprint for the future. The decisions that shape this budget have a lasting impact. Good decisions result in increased investment and future positive returns while poor decisions limit future flexibility and may result in unanticipated consequences and problems.

The FY 03/04 budget is designed to address the financial constraints facing the City, while continuing to promote the goals of this administration. The focus of the FY 03/04 budget is upon improving the climate for economic development in the City. This is to be accomplished by both funding various projects that directly encourage development and also by continuing to improve on the quality of life in the area. Studies show that one of the major factors in attracting new businesses and retaining existing business is a high quality of life. Knoxville already offers an excellent quality of life, but it can be improved by enhancing the quality of government services being provided. To this end, the budget concentrates on the administrative goals initiated and enhanced in past years, including:

- Parks and greenway expansion
- Preservation of Assets
- Improving the economic climate

GENERAL OVERVIEW

Revenues and Expenses

The adopted property tax rate for FY 03/04 is \$2.70 per hundred dollars of assessed value. Of this amount \$0.81 goes to the Debt Service fund to pay for bonded debt costs. The proposed tax rate is unchanged for the third year in a row. The average residential property in the City of Knoxville is appraised at \$62,283. For the average residential homeowner the taxes paid will equal \$442.72. When adjusted for the impact of inflation and countywide re-appraisals, the proposed tax rate is actually down by 30.8% when compared to the tax rate at the beginning of this administration in FY 88/89.

The total operating budget in Fiscal Year 2003/04 is \$283,167,820. The net budget, i.e., excluding interfund transfers and charges, which are effectively double counted within the budget, is \$218,105,970. The budget for the General Fund, which is the main operating fund of the city, equals \$133,196,180. When compared to the adopted FY 02/03 budget the General Fund is down by \$3,483,720 or approximately 2.55%.

The adopted budget recommends the issuance of approximately \$20 million in new debt. This debt will be used to pay for improvements to Caswell Park, Ashe Park, and Lakeshore Park. The debt is also to go for the initial phase of downtown development now underway. An additional debt issue of approximately \$14 million is planned for FY 04/05 to pay for parking and other improvements in the downtown. Interim funding for these projects will come from a \$10 million line of credit.

BUDGET HIGHLIGHTS

Cities and states across the country have experienced financial difficulties this year. The City of Knoxville is no different, although we may be in better financial shape than many.

A number of outside factors affecting both revenues and expenditures shape the FY 03/04 budget. The general economic slowdown has resulted in lower revenues from business taxes and sales taxes. The dramatic decline in interest rates has affected interest earnings. The drop in stock values has lowered expected earnings from the Hall income tax. The fiscal crisis at the state level has resulted in the reduction of state shared revenue by nine-percent, the dollar impact of which is approximately two million. Federal grants, which have been used to help pay police officer salaries, are ending. A lowering of the equalization factor used in the computation of some property taxes has negatively impacted even some normally stable revenue sources.

At the same time that revenues have been stagnant or declining, certain fixed expenditures have been rising. The cost of health care

Executive Summary

coverage has grown at a dramatic level. In preparing the FY 02/03 budget we had projected a fifteen-percent increase in health care to occur at mid-year. The actual increase was more than twenty five-percent. Based upon current trends we have built in a twenty-percent increase at mid-year. The estimated impact of these increases upon the City is \$1.6 million with employees assuming another \$0.8 million.

The cost of insurance has risen as a result of such events as September 11, 2001 and other occurrences and the City is not immune to these price hikes. The City is self-insured for workers compensation and the costs have grown significantly. One claim is expected to cost approximately \$1.5 million. As reserves in the insurance funds have fallen in recent years, all cost increases must be recovered.

The City uses a large amount of fuel in the course of patrolling the streets, answering fire and emergency calls, maintaining transit service, and providing upkeep of streets and neighborhoods. The rise in fuel prices over the past year has resulted in increased costs for maintaining services. In the area of utilities the City is also affected negatively. The Tennessee Valley Authority (TVA) has announced a ten-percent rate hike. The estimated cost increase being passed on to the City is approximately six percent.

The City maintains a pension fund for its employees. The recent performance of the stock market has affected the portfolio of this plan and has made it necessary to increase the City's contribution rate this year to maintain full funding of the plan. Barring a major upturn in the markets it is likely that additional increases will be required in future years.

The impact of the decline in revenues and the increase in fixed operating costs has made it necessary to reduce other expenditure areas. As part of the budget process each department was required to reduce five-percent from its FY 02/03 budget level. This was done in a variety of ways. However, given the high portion of costs devoted to labor, most of the reductions occur in personnel. As part of the FY 03/04 budget the personnel count of the

03/04 budget the personnel count of the City drops by 123 full-time positions and 13 part-time positions. Most of the reductions occur through attrition. The reductions have been done in a way so as to minimize the deleterious effect upon city services. At the same time the salary increases normally provided to employees have been deferred for the first quarter of the fiscal year.

Despite the financial constraints facing the City, the budget provides funding for several facilities to address economic development and quality of life issues in the City. These issues adhere to the objectives established at the beginning of this administration and carried on throughout.

Parks and Greenway Expansion

The FY 03/04 budget again endorses one of the administration's priorities: parks and recreational programs. In addition to funding the operational needs of the department, several other improvements are budgeted. These include \$200,000 to continue the expansion of the greenway system, and \$375,000 for completion of the Caswell Park improvements. Also included is \$1.4 million for complete development of Ashe Park, and \$275,200 to be used for land acquisition for a new park in south Knoxville. An appropriation of \$6 million is recommended for improvements to Lakeshore Park. This project not only will serve to improve the quality of life of Knoxville residents but will also serve as a tourist destination site.

Preservation of Assets

Sound management calls for the preservation of assets. The city's assets are the infrastructure such as roads, bridges, streetlights, etc. Various programs are in place to protect and maintain these assets.

The city annually funds ongoing bridge repair and sidewalk programs. This continues with the FY 03/04 budget. Included in the capital budget for FY 03/04 is \$650,000 for the bridge repair program, which will be used for im-

Executive Summary

provements to the Gay Street Bridge, and \$100,000 for the construction of sidewalks and \$250,000 to install curb cuts. A traffic-related problem is signalization and the proposed budget includes \$175,000 for the purchase of new controllers and other signal improvements. Funding of \$425,000 is to go for improvements to the drainage culvert system at Papermill Road and Kingston Pike. Also included is \$1 million to be used for re-roofing of the Auditorium/Coliseum.

Preservation of our history is also important and a portion of this budget is dedicated to historic preservation efforts in our downtown. It is vitally important that we continue to recognize our past as well as plan for our future, and we hope to do this with a \$1 million contribution to be used in the renovation of the Tennessee Theatre. This continues the donation begun in FY 02/03. The City plans to include a like amount in the FY 04/05 budget.

Improving The Economic Climate

A solid economy is essential for any city. The first phases of downtown redevelopment have been very positive, so much so that we have created another issue, a lack of parking in the downtown core. This budget includes \$14 million to begin the work needed to address such parking issues and to continue the momentum of downtown development efforts.

The budget also continues the financial commitment to the Tourism and Sports Development Corporation to help promote tourism efforts and to attract visitors to the new Convention Center. Enhancing cultural opportunities also effects economic development. The budget continues funding of \$190,000 for improvements to the East Tennessee Historical museum, part of a multi-year \$1 million commitment. Operating contributions are made to the Knoxville Symphony, City Ballet, the Art Museum, the Tennessee Theatre and several other arts and cultural groups.

Chilhowee Park has proved very successful in attracting various events to the City. Still, more work is needed. Accordingly, this budget includes \$1.5 million to make improvements to

Jacobs Building. In doing so we can secure the Chilhowee Park's status as a premier event location, as well as an excellent park facility in east Knoxville.

Accounting Changes

There are some major accounting changes which affect comparisons between the FY 02/03 and FY 03/04 budgets. These changes are necessary to comply with the new GASB 34 accounting standards.

Two funds, the Stormwater Fund and the Solid Waste Fund, have been changed from Enterprise Funds to Special Revenue Funds. This is basically a reclassification and renumbering of the funds. To simplify comparisons the financial history associated with these funds has been reclassified as well.

The more significant change involves the Convention Center Fund. In FY 02/03 the debt service on this facility was shown in the Debt Service Fund. Beginning in FY 03/04 the interest on the Convention Center debt is included in the Convention Center budget. Principal payments are also made from this fund. Revenues from the hotel/motel taxes, and admission tax will also now flow to the Convention Center fund. The revenues generated by the Convention Center, along with the various hotel/motel taxes are not sufficient to cover the debt on this facility. As such a transfer from the debt service fund is being made to fully fund all costs. The costs associated with the contribution to the Tourism and Sports Development Corporation have also been shifted from the General Fund to the Convention Center Fund.

CONCLUSION

The remainder of this budget includes additional summary material, and a more detailed discussion of revenue and expenditure trends. It is hoped that these materials will provide the reader with a more thorough understanding of the proposed operating budget.

Changes to the Proposed Budget

The Executive Summary describes the budget as adopted. The adopted budget is, however, different from the Mayor's proposed budget in several areas. The following paragraphs and the accompanying table discuss the changes made to the proposed budget. The total budget as adopted equals \$283,167,820 while the adopted General Fund budget is \$133,196,180. These amounts compare, respectively, to the proposed amounts of \$283,823,570 and \$133,599,140.

In preparing the proposed budget we had assumed a thirty percent (30%) increase in the cost of health care. Subsequent to the final adoption of the budget we received notification from the state, indicating that the increase will be approximately twenty percent (20%). We have consequently lowered the appropriations for health care expenditures. As a corollary to this reduction the adopted budget funds employee salary increases beginning in October 2003 rather than in January 2004 as in the proposed budget.

The above changes affect the budgets for most departments. The budget is lower for most departments, while the budget for others increase slightly. The differences between increases and decreases relate to the number of individuals who have family health coverage in each department. The largest change is in the Health Care fund, which has a decrease of \$639,430.

A second group of changes result from revisions in the Governor's proposed budget. At the time of the Mayor's proposed budget the Governor had proposed a nine percent reduction in all state shared revenue. During legislative discussions the plan was modified so as to achieve an overall reductions in state shared revenue of nine percent (9%) while not reducing each state shared revenue by the same percentage. For example, the adopted state budget does not reduce state gas taxes, but reduces revenues from the Hall Income Tax by thirty-three percent (33%). This impact on the City of Knoxville budget is an increase in the State Street Aid Fund and a reduction in the General Fund budget. The increased gas taxes will be used for capital projects and funding for KAT. Funding from the General Fund for these activities are reduced by an offsetting amount.

There are two other changes from the proposed budget. The first is a correction to the Legislative budget, and the second is an increase of \$102,230 in the Fire Department budget to maintain services at Station 6. The Fire Department will seek other operational efficiencies to offset the full cost of maintaining services at Station 6. The use of an additional \$100,000 in appropriated fund balance is also recommended. This will used for capital projects.

PROPOSED - ADOPTED BUDGET COMPARISON

BUDGET POLICIES

- 1) The budget shall be balanced by fund.
- 2) The budget will include all revenues that will reasonably be anticipated from all sources and the entire amount of fund balance estimated to be carried forward at the beginning of the fiscal year.
- 3) Appropriations will be made at the major account code level, i.e., personal services, operating expense, capital outlay, debt service, grants and aids, and non-operating expenses.
- 4) The Mayor or his/her designee shall approve transfers between major accounts within a budget center (department or division). Transfers between departments and funds shall be approved by the City Council.
- 5) The operating budget will be adjusted to reflect actual fund balances at such time as the beginning fund balances are known.
- 6) Current operating revenue should be sufficient to support current operating expenditures.
- 7) The City will establish a reserve for contingencies of between 3 percent and 10 percent for each operating fund in order to fund unforeseen items/events that occur during the course of a fiscal year.
- 8) Costs of support functions should be allocated to the appropriate services where they are performed wherever possible.
- 9) The City will develop a program to integrate performance measures and objectives into the budget and a system to monitor performance in meeting objectives.
- 10) The budget should portray both direct and indirect costs of programs wherever practical.
- 11) Internal Service Funds shall be self-supporting.
- 12) The City will annually submit documentation to qualify for the Governmental Finance Officers Association "Award for Distinguished Budget Presentation".

DEBT MANAGEMENT POLICIES

- 1) When the City finances projects through the issuance of bonds it will pay back the bonds within a period not to exceed 90% of the useful life of the project.
- 2) Where possible the City will use self-supporting revenue, special assessment, or other self-supporting bonds, instead of general obligation bonds to fund capital projects. Self-supporting revenue bonds are bonds used to construct/purchase facilities, which will, in turn, generate fees/charges to repay the bonds.
- 3) The City will not use long term debt to finance current operations.

- 4) The City will seek to maintain and, if possible, improve its current bond rating.
- 5) The City will maintain good communications with bond rating agencies to inform them about the City's financial conditions. The City will follow policy of full disclosure. Significant financial reports affecting or commenting on the City will be periodically forwarded to the rating agencies.

GRANT POLICIES

- 1) Grant applications to fund services/programs with state or federal funds should be reviewed by City staff and the City Council with significant consideration given to:
 - (a) the cost of administering the grant relative to the size of the grant;
 - (b) the availability of matching funds if required;
 - (c) the extent to which locally generated funds will be required to support those programs when the original funding is no longer available; and
 - (d) the desirability of the program, i.e., whether or not the City would be funding the program were it not for the grant.
- 2) All grant applications must be approved by the City Council prior to submission. The City Council must also approve the acceptance of all grants.

FUND BALANCE POLICIES

- 1) The City will attempt, where possible, to have each operating fund maintain a balance sufficient to cover the cash needs of the fund for a ninety (90) day period.
- 2) The City should use fund balance for capital or other one-time projects and not to support on-going operations.

CAPITAL IMPROVEMENT POLICIES

- 1) The City will develop a five-year plan for capital improvements and update it annually.
- 2) The City will make all capital improvement expenditures in accordance with a capital improvement program.
- 3) The City will coordinate development of the capital improvement budget with the development of the operating budget. The City will annually adopt a capital budget based upon the multi year capital plan.
- 4) The City will identify the estimated costs and potential funding sources for each capital project prior to inclusion in the CIP.

REVENUE POLICIES

- 1) Fee schedules shall be adopted and amended by resolution.
- 2) All fee schedules and user charges should be reviewed at least every two years and then be adjusted, if necessary.
- 3) When imposing new fees and/or charges the proposed fee/charge should be examined using the following criteria:
 - Sufficiency Fees and/or charges should recover the full cost of issuance, administration, and enforcement, recognizing that adjustments may be necessary for the benefit of the public;
 - Efficiency Fees/charges should be designed for easy, inexpensive administration by the City and easy, inexpensive compliance by the individual/business paying the fee/charge. A minimum of the revenue raised through the collection of a fee/charge should be consumed in the process of raising it;
 - Simplicity Fees/charges should be easily understood by the payee and City officials, leaving as small a margin as possible for subjective interpretations.
- 4) The Mayor or his/her designee should prepare, at least semi-annually, a report comparing actual and budgeted revenues and expenditures for all operating funds.
- 5) The City will work to diversify its revenue base in order to reduce the dependence upon property taxes.

Budget documents can be difficult to understand for someone who works with them daily. To someone who may only see such a document occasionally, the confusion can be worse. The purpose of this section is to assist all readers by explaining the way the document is structured, the schedule under which it is developed, and some of the basic policies which shape it. For those individuals who may have difficulty with some of the budgetary and financial language that is used, an extensive glossary is located in the appendix of this document. GAAP (Generally Accepted Accounting Principles) basis for budgeting is used for all funds.

Fiscal Year

The budget covers the activities and expenditures for a given time period or fiscal year. The City of Knoxville's fiscal year runs from July 1 to June 30 of the following year. This budget covers the

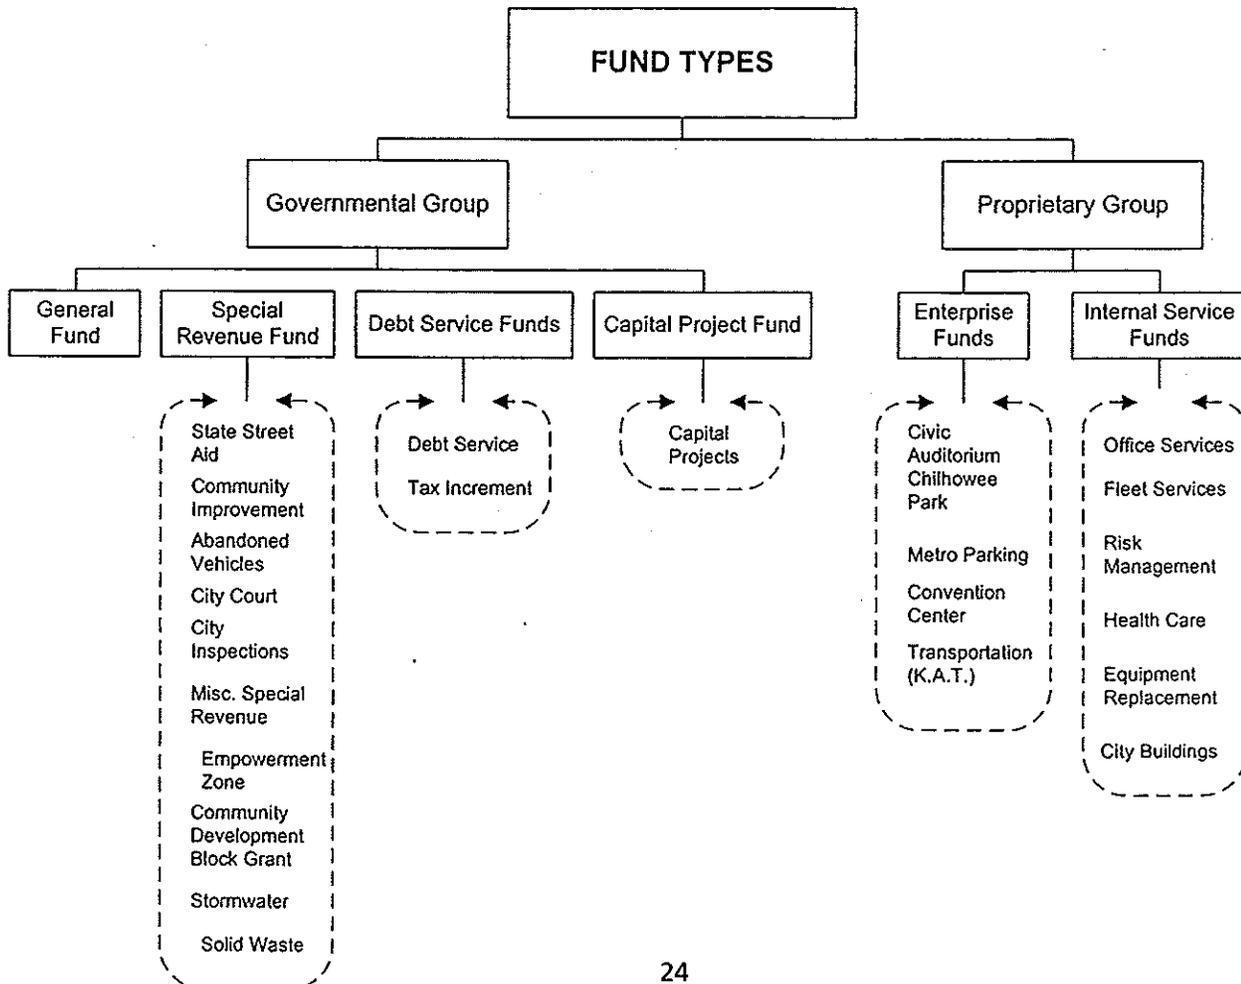

period July 1, 2003 through June 30, 2004.

Organization by Fund

This document is organized by funds. A fund is an independent fiscal and accounting entity, with a self-balancing set of accounts. Funds maintain independent records of cash and/or other resources, together with all related liabilities, obligations, reserves and equities. The purpose of a fund is to carry out specific activities or attain certain objectives in accordance with special financial regulations, restrictions or limitations.

As noted above the budget is organized, consistent with proper accounting techniques, by fund. As shown in Figure 1 below, there are two groups of funds, the governmental funds group and the proprietary funds group.

Figure 1

A governmental fund operates on general governmental income, such as taxes, grants or general obligation debt. According to Generally Accepted Accounting Principles (GAAP) these funds use a modified accrual basis of accounting. A proprietary fund is designed to operate like a private enterprise, where income is earned based on services provided, often through user fees like ticket sales or concessions. Proprietary funds use the full accrual method of accounting and are authorized to depreciate their assets.

Within these two basic groups are seven types of funds as described below:

GOVERNMENTAL FUNDS

General Fund Accounts for all financial transactions not properly accounted for in another fund

Special Revenue Funds Account for the proceeds of specific revenue sources (other than special assessments) or to finance specified activities as required by law or administrative guidelines

Debt Service Funds Account for the payment of interest and principal on long term debt other than special assessment and revenue bonds.

Capital Project Funds Account for the receipt and disbursement of monies used for the acquisition of capital facilities other than those financed by special assessment and enterprise funds.

PROPRIETARY FUNDS

Enterprise Funds Account for the financing of services to the general public where all or most of the costs involved are recovered by user charges or fees.

Internal Service Funds Account for the financing of activities or services performed by an organizational unit within a governmental jurisdiction for another organization unit within the same governmental jurisdiction.

Trust and Agency Funds

Account for assets held by a governmental unit as trustee or agent for individuals, private organizations or other governmental

It should be noted that there is one type of fund, the Trust and Agency Fund, which the City of Knoxville maintains but does not budget. The City has three separate trust funds, and a complete description of each trust fund is provided in the City's Comprehensive Annual Financial Report (CAFR).

Each fund is made up of one or more administrative entities called departments. A department has managerial authority to carry out governmental functions like police patrol, fire prevention and bill paying through the City's charter, related ordinances and mayoral directives.

A department can be budgeted in one fund or many. Some, such as Civil Service or Emergency Management, operate only within the General Fund (100). Others are shown within several funds. For example, the Law Department operates in the General Fund, the Risk Management Fund (704) and Health Benefits Fund (705). A table showing total expenditures by department is included in the summary section.

The City of Knoxville appropriates (budgets) dollars at the departmental level within each fund. Each department is authorized to spend monies to accomplish their mandated responsibilities and related programs. However, the budget is developed on a division and line-item basis. This document's base level of information is the division.

A division is a funded operating unit of a department responsible for implementing a program or group of programs assigned to the department. Police Training division (2361) is responsible for the professional growth of the City's police force.

Budget Adoption

The City Charter requires the Mayor to submit a proposed budget to the City Council no later than May 1st of each year. After the budget is presented, the City Council will hold two readings of the budget ordinance. At least one public hearing must be held between the first and second readings of the budget ordinance. Council workshops are also held between first and second reading to gain a better understanding of the proposed budget.

For the budget to become effective, one of two things must happen. First, the budget ordinance can be passed by the City Council on two readings. The second way occurs by default. That is, if the City Council is unable to pass a budget by June 15, then the Mayor's proposed budget and tax rate automatically become law.

Budget Amendments

From time to time it becomes necessary to modify the adopted budget. The procedure for amending the budget depends upon the type of change that is needed. One type of change does not affect the "bottom line" total for the department. The Management and Budget division upon request with proper documentation may effect these changes, mainly transfers from one line item to another within a department's operating budget or changes between divisions within a department.

The second type of budget amendment brings about a change in the total appropriation for a department or fund. Examples of these changes include, but are not limited to:

- The acceptance of additional grant money which might become available.
- The appropriation of additional funding if expenditures are projected to exceed budgeted amounts.
- The adjustment to reflect increased tax receipts or:
- The reappropriation of monies from one fund to another when deemed necessary.

These four types of changes require Council approval in the form of an ordinance.

Operating Budget Policies and Procedures

The development of the City's Budget is based on the following guidelines and policies in accordance with the City's Charter and the City Code:

- The primary budgetary objective is to provide the highest possible level of service to residents without impairing the City's sound financial condition. Continual efforts will be made to improve productivity, lower costs and enhanced service.
- The budget must be balanced for each fund; total projected revenues must equal total anticipated expenditures.
- The City will avoid budgetary procedures that balance the current budget at the expense of meeting future year's obligations.
- Estimated revenues must not exceed one hundred ten percent (110%) of the total amount collected during the last completed fiscal year or the current fiscal year.
- The City will maintain a budgetary control system to ensure adherence to the budget and will prepare regular reports comparing actual revenues and expenditures to budgeted amounts.
- All operating funds are subject to the annual budget process with the exception of payroll, which has a net effect of zero, grant awards, which are subject to grant contract limitations, and trust and agency funds.
- Law and policies on limitations to revenue sources must be explicitly addressed in the budget process.
- One to five percent (1% to 5%) of the General Fund revenues must be deducted from all monies collected during a given year and placed in the General Fund Reserve. These funds may be used for repairs to buildings or purchases of equipment, but only in departments whose operating funds come from the General Fund.

The City's Charter (the "Charter") requires the Mayor to prepare and submit to the City Council a balanced budget. Therefore, the entire budget appropriation may never exceed the estimated available resources. The estimate of available resources is based on the amount of available surplus, if any carried forward from the preceding year, the probable revenues of the City derived from ad valorem taxes and from such other contingent revenues of the City as may probably accrue. The budget process specified by the Charter is in conformity with generally accepted accounting principles.

The Charter further requires that, in preparing the budget, the City Council shall first provide for the payment of debt service on the outstanding City bonded indebtedness, and then allocate the remaining revenues among the City departments.

The Charter also provides that no obligation of City funds may be made unless the Finance Director of the City certifies that funds are available for the payment of such obligations or that such funds will be available before maturity of the obligation. The Charter prohibits the execution of any contract or orders for the payment unless signed by the Mayor and countersigned by the Director of Finance.

Financial Reporting

As required by generally accepted accounting principles, all city funds and account groups are organized according to standards established by the Governmental Accounting Standards Board (GASB). The City's financial reporting system is designed to provide timely, accurate feedback on the City's overall financial condition. All City financial statements are audited annually by independent certified public accountants.

The City has received the Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting every year since 1986. The Certificate of Achievement recognizes that the City's financial statements meet strict standards of GASB. For more information concerning the City's financial reporting, contact the City's Accounting Office.

Basis of Budgeting

The City's budget is prepared in accordance with Generally Accepted Accounting Principles (GAAP). This is the same as the basis of accounting. The budgets of the governmental funds group type

(General Fund, State Street Aid, etc.) are prepared on a modified accrual basis. Briefly, this means that obligations of the City (i.e. purchase orders or contracts) are budgeted as expenditures when the commitment is made, but revenues are recognized only when they are measurable and available.

The proprietary funds group also recognizes expenditures as encumbrances when a commitment is made (i.e. through a contract or purchase order). Revenues are recognized when funds are received, or if the service has been completed, the revenue will be accrued for year-end purposes.

Basis of Accounting

The City Charter requires financial reports to be prepared in accordance with Generally Accepted Accounting Principles (GAAP).

The accounts of the City are maintained on the modified accrual basis. The modified accrual basis uses the following guidelines:

- Revenues are recorded when they become measurable and available as net current assets. Revenues, which are accrued, include property taxes, shared revenues, licenses, interest revenue, and charges for services.
- Other revenues are recorded when cash is received. Grant revenues are accrued when funds are expended.
- Expenditures, except as specified below, are recorded at the time liabilities are incurred.
- Amounts recorded in the long-term debt account group which relate to accumulated vacation liability and litigation liability which had not been paid within 60 days of the fiscal year end are recorded as general long-term debt when it is incurred.
- Interest and principal on general long-term debt is not accrued, but is recorded as an expenditure on its due date.
- Disbursements for purchase of capital assets are considered expenditures.

Investment/Cash Management Practices

The City of Knoxville operates on a cash management program under a master banking service agreement with a major Tennessee banking institution that coordinates the City's financial needs. The City has a lock box arrangement, which authorizes the bank to pick up property tax receipts, directly from a Post Office box, and thus credit the City's account immediately.

The City's investment policy first emphasizes the safety of city funds, then the liquidity of the investment, and lastly, the rate of return.

Investment of idle City operating funds is controlled by State Statute and City ordinances which generally limit investment instruments to direct U.S. government obligations or those issued by its agencies. However, beginning January 1, 1991, the City's investment possibilities were expanded to include Bankers Acceptances and Commercial Paper, subject to specific quality restrictions.

As required by statute and ordinance, all deposits and certificates of deposit are secured by similar grade collateral pledged at 110% of market value for all amounts in excess of that guaranteed through federally sponsored insurance programs. The City Charter mandates that portfolio management and control of the City's Pension Fund be vested in the City Pension Board. Along with several professional investment counselors, the Pension Board directs all investments of the Fund. A major Tennessee banking institution serves as trustee for the fund.

How to Read This Document

A budget is a plan, a peek into the future. While at first glance, a budget may simply appear to be a list of numbers on paper used to limit spending, the budget is actually a dynamic operations guide, which identifies programs, services and activities which the City feels are important to provide in the ensuing year. Furthermore, it identifies the financial guidelines by which these activities are to abide.

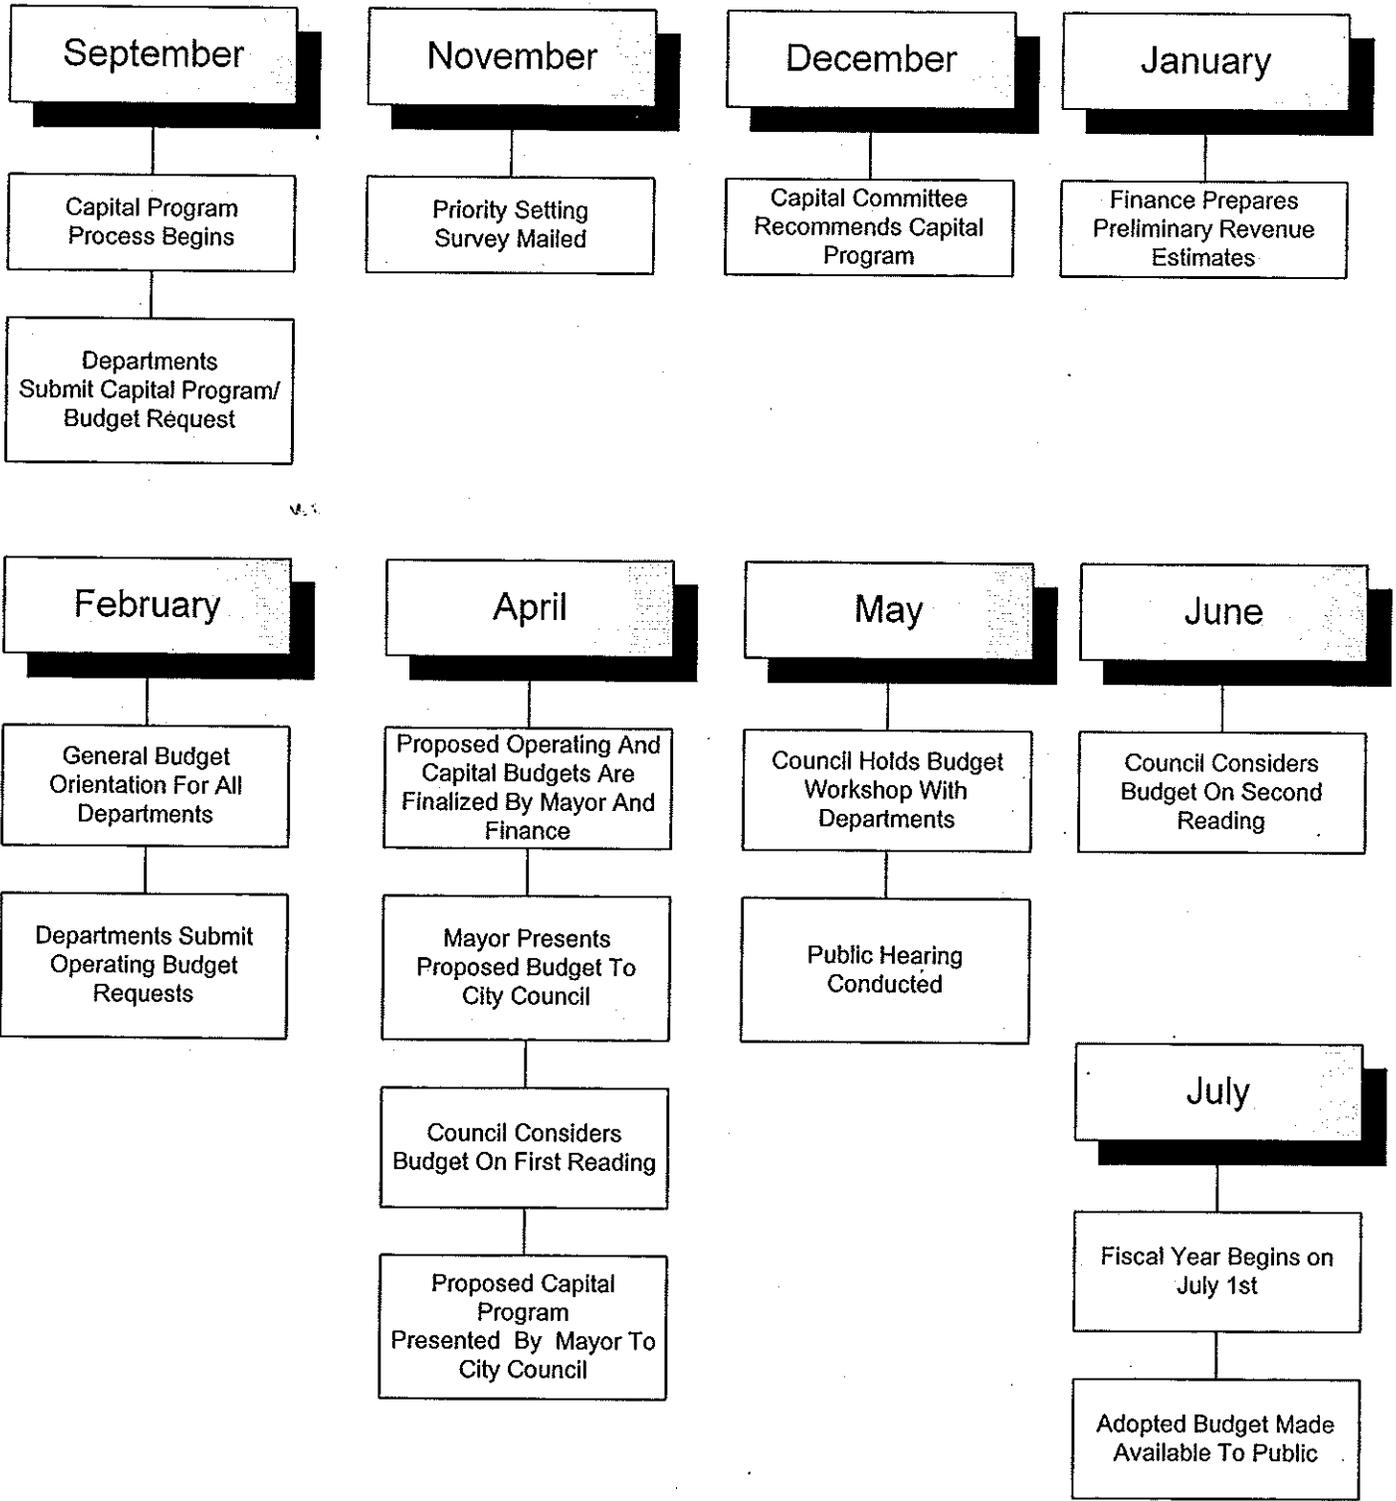

This budget document is separate into sections according to fund. Each fund is organized by departments, which as explained earlier, are unique units with specific responsibilities, generally defined in the City's Charter. A summary page is provided for each department which explains significant changes. The Department Summary page also presents historical comparisons of expenditures and authorized positions.

Following most of the Departmental Summary pages are Division Summary pages. These give information regarding the individual programs assigned to the department, the accomplishments of the division, objectives of the division and more detail regarding the planned spending by the division.

In addition to the Departmental Summaries, most funds have a separate section regarding the funds revenues. These sections, the first set of pages in the funds budget, outline specific data concerning revenue sources, methods used for projections and revenue trends of note, if any.

For those readers who wish to only see the basic overview of the budget, please refer to the Summary Section of the document.

THE BUDGET PROCESS 2003-2004

BUDGET CALENDAR FOR FISCAL YEAR 2003-2004

<p>NOVEMBER 8th</p>	<p>Survey mailed to 1900 randomly selected registered voters.</p>	<p>APRIL 30th</p>	<p>Last day that salary commendations based upon salary survey results as well as any recommendations of the Mayor may be submitted to City Council, if necessary.</p>
<p>FEBRUARY 17th</p>	<p>General budget orientation materials mailed to all departments that includes the timetable of events, budget request forms, and budget preparation instructions.</p>	<p>MAY 21st</p>	<p>City Council Budget Workshop on the Proposed Budget. Each department will have a scheduled time to present its budget and answer questions.</p>
<p>MARCH 1st</p>	<p>In accordance with Section 2-1123 of the City Code, the Mayor is authorized to meet and confer with employees' representatives for the purpose of reaching an understanding relative to wages, salaries, fringe benefits and other conditions of employment.</p>	<p>18th, 25th and June 1st</p>	<p>Public Notice is sent out regarding a hearing on the proposed budget. The City Charter requires that a public hearing is held between the first and second readings of the Mayor's budget. Public notice must be made ten days prior to the hearing to remain in compliance with Federal regulations. First reading of the proposed budget.</p>
<p>7th</p>	<p>Last day for departments to complete line item and program budget requests.</p>	<p>27th JUNE 5th</p>	<p>City Council Budget Workshop and Public Hearing on the Proposed Budget. Each department will be present to answer questions regarding the budget.</p>
<p>10th-28th</p>	<p>The Finance Department reviews all departmental budget submissions and makes recommendations to the Mayor, including requests for additional personnel and programs.</p>	<p>10th</p>	<p>Second Reading/Adoption of the Proposed Budget.</p>
<p>APRIL 2nd-3rd</p>	<p>The Mayor and Finance Director hold administrative budget hearings with individual departments.</p>	<p>15th</p>	<p>As established by City Charter, last day to approve the Budget and Tax Rate Ordinance.</p>
<p>4th-25th</p>	<p>Administrative review of all budget material is completed and final adjustments are made to the budget document. All funds are brought into balance.</p>	<p>24th</p>	<p>Supplemental appropriations (housekeeping) ordinance which allows for yearend balancing of accounts and funds.</p>
<p>30th</p>	<p>Mayor's Proposed Budget is submitted to City Council in accordance with Charter deadline, along with an updated 5-year Capital Improvements Program and Budget, as required by the Charter.</p>	<p>JULY 1st</p>	<p>Beginning of fiscal year 2003-2004</p>

SUMMARY INFORMATION

The tables and graphs included in this section are designed to provide the reader a financial overview of City operations. Most tables provide historical and current year budget information, as well as projected (unaudited) results for the fiscal year concluded on June 30, 2003.

The first few pages summarize the revenues and expenditures of all funds. The entire budget of the City is \$283,167,820. However, as the following pages show, the net budget (which excludes all interfund charges and transfers) is \$65,061,850 less, or \$218,105,970. The budget for the General Fund, which is the main operating fund of the City, is \$133,196,180.

This section also contains information of the total authorized staffing. The first of these tables

identifies permanent positions only; the second shows both full-time and part-time positions. The second table will equal the sum of each departmental summary page. Also included are multi-year personnel comparisons, to show the changes from the beginning of the current Mayoral administration. Finally, this section presents information on tax rate calculations and the impact of the adopted tax rate on homeowners.

More detailed information regarding the City's financial condition can be obtained using the Comprehensive Annual Financial Report (CAFR). This information is available at the Knox County Public Library, the University of Tennessee Library and the City Recorder's Office. Please contact the Finance Department if you desire more information than is provided in these documents.

The above table shows the part-time staffing trends during the current administration. Note that the drop in staffing for World's Fair Park is attributable primarily to a change in classification. At the beginning of this administration all staff of the World's Fair Park were classified as part time. This changed in FY 89/90. The decline in Civil Service relates to a decision by the Civil Service Board to forego their salary. This results in the Board Members no longer being shown as part-time personnel.

For additional information please refer to each respective Departmental Summary Page.

EFFECT OF TAX RATE ON HOMEOWNERS

In FY 2003/04 the proposed tax rate is \$2.70 per hundred dollars of assessed value, or the same as in FY 2002/03. The following charts summarize the effect of the city's property tax on homeowners. As shown, a residential home appraised at \$60,000 would be assessed at 25% of that value, or \$15,000. Taxes due are per \$100 of value, so the city property tax due for a

\$60,000 home is \$405.00 (calculated by dividing \$15,000 by 100 and then multiplying by the city tax rate of \$2.70.) The average appraised value for residential property is \$62,283. For the average residential homeowner the total city property tax bill is \$442.72.

Appraised Value	Assessed Value (25%)	Property Tax Due
\$40,000	\$10,000	\$270.00
\$60,000	\$15,000	\$405.00
\$62,283	\$15,570	\$442.72
\$80,000	\$20,000	\$540.00
\$100,000	\$25,000	\$675.00

* The Property Assessor is required by law to undertake a complete reappraisal of property at least every four years. These reappraisals were completed in 1993, 1997 and 2001.

Note that the assessments for each calendar year are reflected in the budget for the following year. For example the 2003 assessments are used in the FY 03/04 budget. Residential property is assessed at 25% of the appraised value. Commercial/Industrial property is assessed at 40% of the appraised value and public utility property is assessed at 55% of the appraised value. The majority of public utility property is appraised by the Tennessee Public Service Commission. Personal property is assessed at 30% of the appraised value.

CITY AND COUNTY PROPERTY TAX RATES

FY 87/88 - FY 03/04

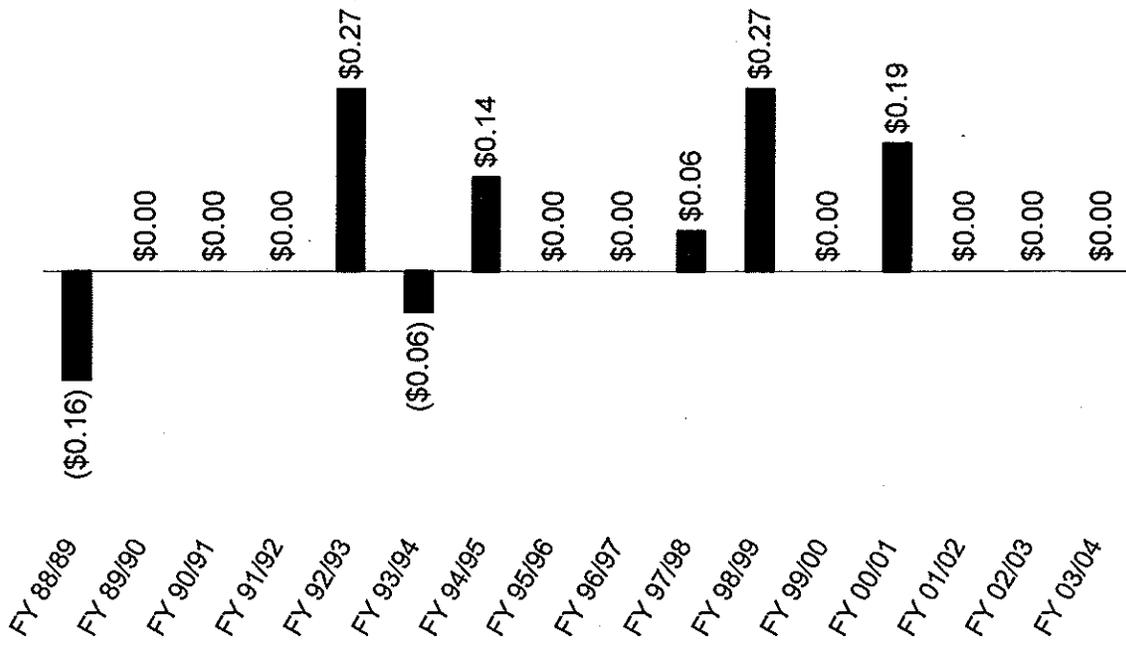

Fiscal Year	City Rate	County Rate	City Combined Rate
FY 87/88	\$3.40	2.76	\$6.16
FY 88/89	\$3.24	2.91	\$6.15
FY 89/90	\$3.24	2.85	\$6.09
FY 90/91	\$3.24	2.85	\$6.09
FY 91/92	\$3.24	3.07	\$6.31
FY 92/93	\$3.51	3.25	\$6.76
FY 93/94	\$2.73 *	2.91 *	\$5.64
FY 94/95	\$2.87	2.91	\$5.78
FY 95/96	\$2.87	3.16	\$6.03
FY 96/97	\$2.87	3.16	\$6.03
FY 97/98	\$2.58 *	2.77 *	\$5.35
FY 98/99	\$2.85	2.77	\$5.62
FY 99/00	\$2.85	3.32	\$6.17
FY 00/01	\$3.04	3.32	\$6.36
FY 01/02	\$2.70 *	2.96 *	\$5.66
FY 02/03	\$2.70	2.96	\$5.66
FY 03/04	\$2.70	2.96	\$5.66

* The Property Assessor is required by law to undertake a complete reappraisal of property at least every four years. This reappraisal was last completed in 2001. Whenever a property reappraisal occurs, cities and counties are required to adopt a "Certified Tax Rate". This is the rate that would generate the same amount of tax revenue as before reappraisal. The "Certified Tax Rate" in FY 01/02 for the City was \$2.70 and for the County \$2.96. This rate in effect discounts the increases in value resulting from reappraisal.

Note that taxes are levied per \$100 of assessed value.

CHANGES IN TAX RATE

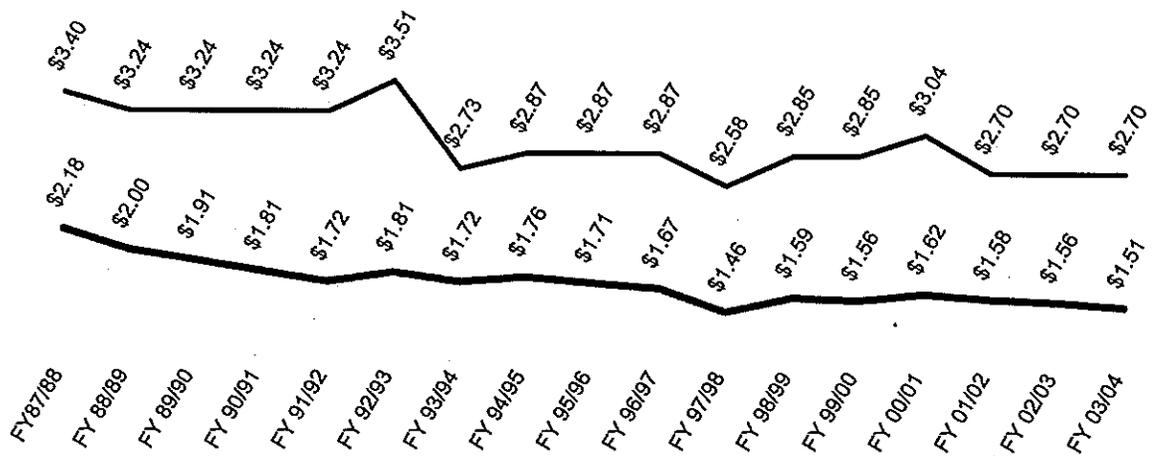

Fiscal Years 1988/89 – 2003/04

City of Knoxville

ADJUSTED/EQUALIZED TAX RATE

Fiscal Years 1987/88 – 2003/04

The above chart compares the actual (nominal) tax rate to the effective tax rate, that is, the tax rate after it has been adjusted for the effects of reappraisal by the Knox County Property Assessor and the impact of

inflation. As can be seen by the lower line, the effective tax rate has declined from \$2.18 in Fiscal Year 1987/88 to \$1.51 in Fiscal Year 2003/04, a drop of sixty-seven cents (67¢) or 30.8%.
