KPD 2013 Annual Report

LETTER FROM THE CHIEF

The Honorable Madeline Rogero Mayor, City of Knoxville

Dear Mayor Rogero,

During this past year, the department continued to focus on our core functions of preventing, reducing, controlling, and solving crime, order maintenance, and traffic issues. The Knoxville Police Department again was a leader in the state for crime clearances with over 46% of Group A offenses cleared compared to the State average of 37%. Overall crime in the City declined over 8% which included a 6% decrease in Crimes Against Persons and a 9% decrease in Property Crimes. Traffic safety was improved through a variety of efforts that included education, engineering, and enforcement. There was an overall decrease of 1% in crashes, which results in significant financial savings to the motoring public. Quality of life issues in our neighborhoods remained a priority. During 2013, members of the department along with the assistance of the Knox County District Attorney General were successful in shuttering 5 properties that were havens to illegal activities in our neighborhoods. Five of these locations were residences that were harbors of dangerous criminal elements that negatively impacted the community. By closing these, we made a positive impact on the lives of all our residents.

These are just a few examples of the exceptional work the women and men of the Knoxville Police Department do on a daily basis. As always, we look forward to continuing our positive relationship with you and City Council as we continue to improve the safety and quality of life of our community and keep our great city as the premier place to live, work, and play.

Sincerely,

Blanch

David B. Rausch Chief of Police

Mission Statement Pursuit of Excellence in Performance and Service

The Knoxville Police Department shall strive for excellence in performance and delivery of services to the total community. We will recruit, employ and maintain personnel who reflect high professional standards. As we look to the future, it will be in a progressive and flexible manner that will meet tomorrow's community needs.

Internal Affairs

The focus of the Internal Affairs Unit is to investigate and monitor allegations of misconduct that come from concerned citizens, employees and/or supervisory personnel within the city. While Internal Affairs is primarily focused on misconduct within the police department, the unit also conducts investigations within other city departments. The Internal Affairs Unit is committed to maintaining the integrity of the Knoxville Police Department and other city departments through fair and impartial investigations. In addition to conducting investigations, the Internal Affairs Unit also completes pre-employment background investigations on all police department employees and Knoxville firefighters. Upon request, this same service is extended to other departments within the city. The unit also administers and oversees the Professional Excellence Program.

Public Information Office

The Public Information Office is staffed by one person. The department utilizes trained assistant public information officers that are assigned to various units. These officers have the responsibility of responding to media inquiries and providing access to information on a twenty four hour basis. Digital imaging for the department, data entry and telephone operator/receptionist responsibilities are handled within the Records Unit.

The Knoxville Police Department was the first large agency to use the state's computerized crash reporting program. This allows all of the officers to submit their reports on their Mobile Data Terminals (MDT), thus reducing the turnaround time for making it available to citizens and sending to the state. The unit is also working with the Tennessee Highway Patrol to start using eCitation, an electronic citation program. In order to better serve the citizens of Knoxville the police department purchased a new records management system that will lead to a completely paperless system. This new system is now fully functional.

The Records Unit processed 24,995 transactions resulting in revenues of \$142,042.91. They also expunged 7,002 records, entered in excess of 4,600 misdemeanor citations, and entered 4,795 impoundment reports. The unit also performed over 4,000 background checks for the citizens of Knoxville. We have been working on digitizing all of the police department's records. To this end we have digitized over 56,000 reports this year.

Our NCIC Unit handled 143,136 requests from officers in the field as well as telephone requests, processed 1,282 criminal histories, and 1,168 criminal histories for KCDC. There were 454 persons arrested as a result of NCIC Wanted Persons hits and 4,916 Impounded Vehicles were checked through NCIC along with 4,533 Tow-in Reports. Listed as stolen in NCIC were 630 Vehicles, 508 License Plates, 1,052 Articles and 176 Firearms. Recoveries included 518 Vehicles, 109 License Plates, 11 Articles, and 88 Firearms. There were 502 Missing Persons entered with 540 Found Missing Persons.

Technical Services Unit

The Technical Services Unit provides audio, video and mobile communications to the Knoxville Police Department. During 2013, Tech Services processed 3,282 requests from police in-car camera video for the District Attorney, Public Defender, private attorneys, police officers and private citizens. As an ongoing support for Knoxville Police Department, the unit has maintained a radio fleet of over 1,200 portable and mobile 2-way radios. At the Tech Services location, in-car cameras, digital video recorders and mobile radios are installed and maintained. During police department ceremonies and special occasions, the Tech Unit has provided audio/ video recording of the events, as well as provided video production of department training and public service announcements. Tech Services is constantly researching and analyzing new technologies that would improve officer safety and performance.

Occupant Protection Programs

The Safety Education Unit provides several Occupant Protection Programs to the public. Currently, the Knoxville Police Department has fourteen employees who have completed a 32-hour Child Passenger Safety standardized training and are certified car seat technicians. In 2013, the department conducted 12 child safety seat checkpoints. These checkpoints were held at 917 E. Fifth Ave. on the second Saturday of selected months. At these checkpoints certified technicians inspected more than 300 car seats. This is an increase of more than 50% from the previous year. In addition, technicians conducted pre-natal classes and programs at various locations throughout the City as requested. These classes and programs provide vital child safety seat information to parents on how children should travel safely.

Safety City

Safety City is a community service program dedicated to saving the lives of our children. We began teaching second grade students about pedestrian, bicycle, passenger and fire safety, as well as how to use E-9-1-1 properly in September 2001. Safety City is open Monday – Friday from 8 a.m. to 4:30 p.m. Safety City continues to grow in number of children educated, as well as services offered.

In 2013, more than 11,150 attended Safety City through its various programs presented.

About 6,200 students attended our second grade educational program. During the summer months a modified educational program is conducted for groups from local churches, day cares, scout troops, etc. More than 500 attended this program in 2013. In addition during the summer, Safety City dedicates certain hours for families to enjoy the facility as a park. For about eight weeks, twice a week families may bring their bikes and battery-powered vehicles, or just walk around the 11-acre site.

Safety City hosts two special events, which are offered primarily to teach participants the safety skills needed to safely ride their bikes in their communities. Children, accompanied by an adult, bring their own bicycles for a safety inspection and their helmets for proper fitting adjustments. The participants receive brief classroom instruction and then practice what they learned at various skills stations throughout the miniature city. In 2013, rain threatened the spring event and caused us to cancel the fall event. Approximately 80 participated in the spring Safety Fair.

Shoney's Kid Care Program

The Shoney's Kid Care Program is part of a nation-wide program with The National Center for Missing and Exploited Children. This program allows Safety City to participate with other organizations in order to promote child personal safety to pre-school and school-aged children, as well as their families. During these events, KPD Explorers and Safety City personnel fingerprint children for parents to keep on file in case of an emergency. In 2013, two new locations were substituted to the three day event. Safety City was one of the new locations. About 1,360 children were fingerprinted.

Fatal Vision Project

School Resource Officers

The Fatal Vision Project is an interactive program demonstrating the effects of alcohol. The program uses specially made goggles that simulate three different levels of intoxication. Participants wear the goggles for a "clearer" understanding of alcohol's impairing effects in a variety of situations. The goggles are utilized in classrooms, corporate safety programs and in DUI awareness efforts. These goggles are also utilized in the Tennessee Alcohol Servers Knowledge (TASK) classes as a demonstration of impairment and sellers and servers of alcohol. The unit also utilizes the concussion goggles to educate children of the symptoms of a concussion through simulation and explains how to seek medical treatment if children experience such symptoms.

The School Resource Officer Program is designed to put police officers in the school setting. The presence of School Resource Officers (SRO) on campus ensures a faster police response to incidents requiring police involvement such as emergencies, criminal investigations, and when necessary, arrests. SROs also provide students, faculty, and staff with opportunities to meet and interact with police officers in a non-confrontational setting. This program provides the opportunity for officers to serve as a role model as well as a resource and mentor for students.
